### REPORTS FROM COMMISSIONERS

- Commissioner Navarro: Has been busy with family activities; children are enjoying the ARPD All Sports Camp. Attended and enjoyed the 4<sup>th</sup> of July Parade and complimented the ARPD staff on a job well done. Visited the new Waterfront Park near Seaplane Lagoon and was sad to see the new park has damage done already from skateboards. Judged the Sand Castle event and had a lot of fun.
- Commissioner Jones: Great job on the parade; would like to see an ARPD float in next years parade. Visited the Main Street Dog Park with her dog as there is great parking and space. Would like to see a separation between the large dogs and the small dogs at the park. Asked how the Estuary Park construction would affect the dog park. Answer from Director Wooldridge: Main Street Dog park was always intended to be a temporary dog park since the area is State Tidelands which has very strict laws for what is allowed. Main Street Dog Park will close when a new dog park at Estuary Park is open to the public.
- Vice Chair Robbins: Was a judge for the sand castle contest with Commissioner Navarro and said it was a fun and phenomenal event and hopes to be a judge again next year. Attended and enjoyed the 4<sup>th</sup> of July Parade. Thanked ARPD staff for an amazing job as it was a big undertaking and was concerned if ARPD has enough staff to execute the parade yearly.

- Chair Alexander: Was a judge for the 4<sup>th</sup> of July Parade. Appreciated how well organized it was. Thanked ARPD staff, especially ARPD Manager Patrick Russi and Recreation Supervisor Christina Bailey for doing an amazing job executing the 4<sup>th</sup> of July Parade. Attended the Leisure Club talent show and said it was so much fun as the participants really put their heart in to it. Thanked Morace McKay, Jennifer Cobb and Lori Bustos for a job well done. Has been out in the parks and noticed how many birthday party celebrations with jumpers were going on at the picnic sites. ### **Administration / Projects**

- **Grant received to construct Estuary Park – Phase 2** - ARPD received a \$2.5 million grant to complete Phase 2 of Estuary Park. The grant is from the Land and Water Conservation Fund, which is federal funding administered by the CA Dept. of Parks and Recreation. There is a required 50% City match from Development Impact Fees for Parks for a total project budget of \$5 million. This 4-acre phase of the park builds upon the first phase which includes a baseball/soccer field specifically designed for children and adults with developmental and physical disabilities. This project expands amenities for these populations with a fully inclusive playground for children of all abilities to play together that also creates intergenerational opportunities for parents/guardians and seniors who are disabled or have limited mobility to interact with their children. The park also includes a half basketball court and [Bankshot](#), a unique basketball hoop system designed for all ages and people with disabilities. Players shoot hoops alongside each other, not against each other, with stations that have individually challenging configurations of hoop backboards and heights. This park phase will include a new parking lot, restrooms, large and small group picnic areas, open grass turf play area, small and large dog park plus four pickleball courts, a sport that has grown quickly with many local players. This grant requires final federal approval from the National Park Service after completion of federal forms and review of compliance with state historic preservation laws to “avoid or minimize adverse effects to heritage resources.” This approval is granted as long as compliance is confirmed. The schedule issued by the CA Dept. of Parks and Recreation anticipates that projects will begin in Fall 2023 after final anticipated federal acceptance. This is a similar process that was conducted for the LWCF grant received for Sweeney Park.

- Following direction from the City Manager, staff is coordinating a City Council special meeting in September or October with local Indigenous Tribes and all will be invited to participate. It is anticipated that each will do a brief presentation with questions and discussion with City Council. Staff will propose general concepts on ways the City could support and collaborate with local Indigenous people as part of the discussion. The overall concept is education to build a shared understanding and potentially move forward with collaborations.
- Along with Public Works and led by the Sustainability Manager, ARPD is participating in the selection of a consultant to develop the Urban Forest Plan following issuance of a Request for Proposals. Staff anticipates bringing a contract to City Council for consideration. Development of the Urban Forest Plan includes a significant community input process with broad outreach efforts. The Plan development includes updating the existing tree plan to include park trees and develop recommendations to increase the overall tree canopy, review and recommendations to improve existing policies and procedures, review the structure and funding of urban forest management. This includes an equity-centered approach throughout all aspects of the development and implementation of the Urban Forest Plan.
